

DALLAS GILES

AUTOPILOT ENGINEER | PROJECT MANAGEMENT

Murray, Utah | 385-321-0854 | dallascgiles@gmail.com | [LinkedIn](#) | dallasgiles.com

Project-focused Autopilot Engineer at Tesla with experience coordinating QA, engineering, and leadership across teams of 20-60 people. Known for translating complex technical work into clear priorities, stronger handoffs, faster execution, and measurable outcomes. Seeking a project management role in a technology-adjacent organization.

CORE STRENGTHS

Project Coordination • Cross-Functional Leadership • Prioritization • Process Improvement • Metrics & Reporting • Quality Operations • New-Hire Training • Agile Collaboration • Technical Fluency

PROFESSIONAL EXPERIENCE

Autopilot Engineer | Tesla - Full Self-Driving | Jan 2026 - Present

Draper, Utah

- Developed a solution that reduced Full Self-Driving interventions by more than 7% in a targeted driving scenario.
- Improved overall team effectiveness by 12% by strengthening handoffs, accelerating workflows, and refining processes across multiple projects.
- Exceeded project expectations by more than 6% through disciplined prioritization, metric-driven execution, and coordination across QA and engineering.
- Trained new hires and regularly partnered with engineering, quality, and leadership within teams ranging from approximately 20 to 60 people.

Sales, Shipping & Receiving Associate | Sun & Ski Sports | Mar 2023 - Nov 2025

Murray and Park City, Utah

- Managed high-volume inventory and fulfillment operations averaging approximately 40 orders per day while maintaining accurate documentation in Kibo.
- Moved between operations and customer-facing responsibilities as business needs changed, improving logistics flow and helping the team meet performance goals.

Manager | McDonald's | Earlier leadership experience

Fort Union, Utah

- Trained and supported a team of approximately 40 employees while helping lead shift operations, service speed, and performance execution.

LEADERSHIP INITIATIVE

Co-Founder | Print-A-Smile Foundation | 2024 - Present (passion project)

Murray, Utah

- Co-founded a community initiative centered on 3D-printing toys for children; built the web and donation platform, coordinated early priorities, and established the operating concept.

EDUCATION

Bachelor of Science in Mathematics | Western Governors University | Expected Dec 2027

Web Development Bootcamp | University of Utah | 2023

Technical foundation: Python, JavaScript, SQL, React, Node.js, APIs, Git, AWS, Firebase, testing, and Agile development.
